2017-2

FabHabitat
LOVE YOUR WORLD, LOVE YOUR HABITAT!
You may have heard that your home is a direct reflection of you. Well, it’s true! At Fab Habitat, we are passionate about helping our customers tell their stories. Our collections are unique and vibrant, allowing for both personal expression and daily inspiration - because your home should both reflect your tastes and energize your spirit. It’s your habitat! But, perhaps most importantly, all of our home decor products are ethically produced and eco-friendly. Fab Habitat was built on the idea that style and sustainability can and should go hand-in-hand. All of our products use recycled materials in an effort to reduce our carbon footprint, and all of our rugs are certified by GoodWeave - a nonprofit organization dedicated to ending child labor in the carpet industry.

Our new 2017 collections allow for maximum creativity with minimum harm to the environment. Pull up a seat with our new collection of round recycled plastic poufs. These vibrant poufs, suited for the outdoors, double as seating and storage. Additionally, we are excited to present our new line of unique, hand-crafted stone statues, perfect for your garden or as an interior accent. Make your guests feel welcome before they even step inside with our Hard Wearing Coir doormats made with eco friendly dye. Our large selection appeals to any personality. Staying true to our mission to make beauty out of sustainable and recycled material, we have added two new styles, Samarkand and Kilimanjaro, to our most popular recycled plastic outdoor rug collection. All of our beautifully crafted rugs are woven from straws made up of recycled plastic, and they’re even reversible for a quick and easy style refresh. You can also add a touch of contemporary flair to your home with our new indoor/outdoor accent pillows - perfect for that eye-catching pop of color.
Our Commitment to Sustainability

We strongly believe that our products must be in harmony with nature and create benefits for those who make them. With that in mind, we strive to put care in our materials used, manufacturing processes, and giving back to the local economy.

Materials: Wherever possible we make use of recycled materials, organic dyes, and natural fibers with low carbon footprints.

Processes: Our manufacturing processes employ techniques that are earth friendly such as recycling the water and waste materials used during the process.

Socio Conscious: Fab Habitat is a proud supporter of Navjeevan Society (navjeevanspecial.com), a charity in Aurangabad, India which is involved in betterment of individuals with special needs.

As always, we would like to thank you for your continued support and interaction with us through social media. We truly value our customer feedback, and appreciate all suggestions and stories you have to share. We have the best customers in the world, and we hope you’re as excited about 2017’s sustainable styles as we are. Stay fab!
Fab Habitat partners up with GoodWeave

Creating beautiful products for our amazing customers have always been a passion ours. The most satisfying part of our daily job is creating these fabulously amazing products in a manner that is ethical and sustainable. So when we came across the great work GoodWeave organization (founded by Nobel Prize winner Kailash Satyarthi) is doing we decided to be very much part of making our Habitat a bit more Fab.

GoodWeave’s mission is to end child labor in the carpet industry and to offer educational opportunities to children in weaving communities. This mission is in line with the company and products we seek out to build. We feel proud to be joining the campaign with GoodWeave. So today our products are already amazing, fab, design conscious, eco-conscious, sustainable, fun, and are GoodWeave certified.

HEARTLAND COLLECTION

Come home with Fab Habitat’s new Heartland Collection area rugs. Made using organic dyes and from naturally occurring materials like wool and jute, the thickness of the rugs will add a sense of warmth and comfort to your space. Each rug is carefully hand-woven and naturally durable, ensuring that these rugs will not only stand the test of time; but are certain to help make your house a home.

• Crafted of sustainably harvested jute, a fast-growing, renewable natural fiber.
• Handwoven to create beautiful texture by artisans in India
• Rug Pad recommended for indoor use
• For best results, vacuum regularly and spot clean

* Due to the natural fibers, slight color variation may occur.
